

Title	MES					
Creator /	CRF					
Responsible Partner						
Dataset Identifier	08_AnonymisedMESCRF_I-BiDaaS_WP2_D2.1_v0.1.7z					
DOI	10.5281/zenodo.4264473					
Dataset Description	The MES dataset contains sensors data associated with the type of vehicle					
	being produced. This dataset has to be used with SCADA dataset.					
	Comparing the date and time between the data of the MES and the SCADA					
	it is possible to correlate the information contained in the SCADA dataset					
XX71-	with the vehicle processed.					
Work	WP2 /D2.1					
Package/Deliverable Source	Data have been gethered from the same production lines in which SCADA					
Source	Data have been gathered from the same production lines in which SCADA data are retrieved.					
Processing						
Repository	Data have been processed following CRF rules Zenodo					
Language	English, Italian					
Code list	The MES dataset contains specific data associated with the type of vehicle					
		being produced and is structured as follows:				
		Date	Time	OP020.Passo[20]	modello_op_020	
		D 4		,		
	Format	Date	Hour	Boolean	Number	
	Example	06/10/2018	Hour 09:44:22	Boolean 0	Number 11	
	l -					
	Example • OP(06/10/2018 020.Passo [20	09:44:22] refers to tl	0 ne type of vehicle; w	11 hen it changes from	
	Example OPO 0 to	06/10/2018 020.Passo [20 1, a new veh	09:44:22] refers to the content of	ne type of vehicle; with the area with ser	hen it changes from	
	Example OPO 0 to	06/10/2018 020.Passo [20 1, a new veh	09:44:22] refers to the content of	0 ne type of vehicle; w	hen it changes from nsors	
Туре	Example OPO 0 to	06/10/2018 020.Passo [20 1, a new veh dello_op_020	09:44:22] refers to the content of	ne type of vehicle; with the area with ser	hen it changes from	
Format	• OPO 0 to • mod Boolean, N	06/10/2018 020.Passo [20 1, a new veh dello_op_020	09:44:22] refers to the content of	ne type of vehicle; with the area with ser	hen it changes from	
Format Expected Size	• OP(0 to • mod Boolean, N csv 3.6 MB	06/10/2018 020.Passo [20 1, a new veh dello_op_020 umber	09:44:22] refers to the content of	ne type of vehicle; with the area with ser	hen it changes from	
Format Expected Size Keywords	• OPO 0 to • mod Boolean, N csv 3.6 MB sensor data	06/10/2018 020.Passo [20 1, a new veh dello_op_020 umber	09:44:22] refers to the content of	ne type of vehicle; with the area with ser	hen it changes from	
Format Expected Size Keywords Version	OP(0 to • mod Boolean, N csv 3.6 MB sensor data V0.1	06/10/2018 020.Passo [20 1, a new veh dello_op_020 tumber	09:44:22] refers to the content of	ne type of vehicle; with the area with ser	hen it changes from	
Format Expected Size Keywords Version Date of Repository	• OPO 0 to • mod Boolean, N csv 3.6 MB sensor data	06/10/2018 020.Passo [20 1, a new veh dello_op_020 tumber	09:44:22] refers to the content of	ne type of vehicle; with the area with ser	hen it changes from	
Format Expected Size Keywords Version Date of Repository Submission	Example OP(0 to mod Boolean, N csv 3.6 MB sensor data V0.1 09/11/2020	06/10/2018 020.Passo [20 1, a new veh dello_op_020 fumber	09:44:22] refers to the control of	ne type of vehicle; winto the area with sen	hen it changes from nsors cle being processed	
Format Expected Size Keywords Version Date of Repository	Example OP(0 to mod Boolean, N csv 3.6 MB sensor data V0.1 09/11/2020 any	06/10/2018 020.Passo [20 1, a new veh dello_op_020 umber software enal	o9:44:22] refers to the control of	ne type of vehicle; winto the area with sen	hen it changes from nsors	
Format Expected Size Keywords Version Date of Repository Submission	Example OP(0 to mod Boolean, N csv 3.6 MB sensor data V0.1 09/11/2020 any suff	06/10/2018 020.Passo [20 1, a new veh dello_op_020 fumber software enal	o9:44:22 refers to the control of the more than the control of th	ne type of vehicle; winto the area with sene model of the vehicle	hen it changes from nsors cle being processed Notepad, Excel) is
